Information About the Service

Service Description

TPG's BizPhone is a voice telephony service that is supplied over your internet service. The internet service may be supplied by TPG (for example, an IP-line connection) or by another service provider.

Requirements and Availability

BizPhone requires fixed broadband service and a wired Ethernet port. A BizPhone handset is required unless you are on the SoftPhone plan. Each BizPhone requires a minimum of 100kbps of uncongested upstream and downstream bandwidth for optimal quality.

Included Features

BizPhone plans include handset rental (except for the SoftPhone plan), a direct-in-dial geographic number (DID number), unlimited standard local and national calls, unlimited standard calls to Australian mobiles as well as a range of included features such as voicemail-to-email, call waiting and others. Acceptable Use Policy applies to included calls. Optional extras and their prices are available at tpg.com.au/bizphone

Minimum Service Term

The BizPhone service is available on 0, 12 and 24 month contract terms.

Exclusions

BizPhone plans do not support 19/1900 number calls, fax, dial up modem or other analogue data calls (e.g. EFTPOS, HICAPS), back to base alarms and other monitoring systems using phone lines, and similar features. BizPhone is not available for telemarketing, call centre function and similar uses.
