General: This offer is subject to availability and other conditions and may be withdrawn at any time. Please refer to 'Important Things You Need to Know' at the end of this brochure for further information.

Minimum total cost for NBN Broadband Bundle plans over contract term calculated as: [(contract term x \$(NBN Broadband Bundle Monthly Charge)) + setup + \$20 Home Phone Prepayment Outside Included Value + \$10 Equipment Delivery Fee]. Additional once off \$300 nbn™ New Development charge applies if your premises is identified by nbn™ as being within the site boundary of a new development.

#NBN Speeds: Actual throughput speeds may be slower and could vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. The Standard speed option has a maximum download line speed of up to 12Mbps and maximum upload line speed of up to 1Mbps.

Home Phone Included Calls (NBN Broadband Extra Bundle 12/1): The NBN Broadband Extra Bundle 12/1 allows you to make unlimited Local Calls (includes 13/1300 numbers) and unlimited Standard National Calls to Landlines. Calls to 19/1900 numbers are not supported. Charges for calls made that are not included in the NBN Broadband Extra Bundle 12/1 (e.g. calls to AU Mobile numbers and Directory Services) will be charged at [listed TPG rates](#) by deducting usage charges from your Home Phone Prepayment Outside Included Value.

^^100 International Minutes per month: The 100 International Minutes per month included in the NBN Broadband Extra Bundle 12/1 can be used to call International Landline and Mobile destinations (excluding calls to satellite phones) listed on our [International Call Rates](#) page. Standard per minute rates listed on our [International Call Rates](#) page apply after the first 100 minutes of International Calls and for calls to satellite phones. Unused included minutes for international calls expire at the end of each month.

Home Phone rates and features: Refer to 'TPG Home Phone Call Rates' and 'TPG Home Phone Features' sections further below for information about applicable call rates and features.

Please refer to 'Important Things You Need to Know' at the end of this brochure for further information about the TPG Home Phone service.

Important Things You Need to Know

Critical Information Summary (CIS): The CIS sets out the important information you need to know about a TPG service. You can review the CIS for your selected NBN Broadband with Home Phone plan at www.tpg.com.au/terms_conditions/CIS.

CSG: All plans set out in this brochure are subject to you agreeing to waive the Customer Service Guarantee (CSG). For more information please contact TPG Sales on **13 14 23**.

Availability: The Services are only available in selected coverage areas and subject to infrastructure availability at customer's premises. Please use the address checker on TPG website to check the availability in your area. Further availability checks will be conducted upon registration.

Non-commercial purposes: The plans set out in this brochure are all for residential consumers only and may not be used for commercial purposes.

Backup Power Service: Our service includes, at no additional charge, the supply of a backup battery unit. The backup battery unit will keep some elements of your telephone service going if there is a power outage at your premises. This backup battery unit will keep power going to your NBN Network Termination Device but it will not supply power to either your handset or your Internet router. This means if you have a telephone handset that does not require power and that handset is plugged into the UNI-V port on your NBN NTD, then if there is a power outage you will be able to make and receive telephone calls (including calls to emergency services) for an estimated period of time of about 5 hours.

However, if 1) You remove the battery backup unit, or 2) The unit is faulty or the battery is not replaced after the battery gets low on power, or 3) You have a telephone handset that needs power to function (e.g. wireless handset); then during a power outage, you will not be able to make or receive any calls, including calls to emergency services.

TPG Home Phone Special Note:

- TPG Home Phone supports fax to national numbers in the Telstra, Optus, AAPT and Primus PSTN network. Fax to international numbers is not reliable and VoIP based fax is not supported. The plans set out in this brochure do not support the Priority Assistance Scheme.
- TPG Home Phone does not support EFTPOS, Back to Base alarms, Foxtel program purchase via your landline, analogue modems, Priority Assistance Scheme, calls to 19/1900, 0500 numbers and Universal International Freephone Numbers (UIFN).
- Once an NBN Broadband with TPG Home Phone bundle plan is purchased, you cannot separately cancel either component (NBN Broadband or Home Phone). Cancellation will cease both services. You cannot purchase either TPG NBN Broadband or TPG Home Phone as a standalone service.

TPG Home Phone Number: At registration time, you can choose to port your existing number to TPG or have TPG supply a Direct Inward Dial Number (DID) for use with the TPG Home Phone service. This number will be allocated to you based on the address which you provide us at the time of registration.

TPG will make use of your number as a reference point to charge for local calls. TPG will use its best endeavours to supply the Integrated Public Number Database (IPND) with your address details for the purpose of emergency services (000) calling.

Number Porting: You can port (transfer) your phone number from Telstra, Optus, AAPT, Primus or Powertel to TPG. We may not be able to port your number in all circumstances, including where you fail to provide correct account details, or as a result of contractual obligations with your existing provider. If you are porting your number to TPG, inbound calling to your number will not commence until porting is complete which will take a further 1 to 5 business days.

Home Phone Prepayment Outside Included Value: All TPG services are prepaid. You must pay the monthly recurring charges in advance. In addition, you must make a prepayment for usage that is not within the included value (if any) for the plan that you have acquired. Your initial prepayment will be \$20. After registration, you may nominate how much you wish to prepay but the minimum prepayment is \$20. The prepayment will be debited from your nominated bank account or credit card. By acquiring and continuing to use the service, you agree to an automatic top up of your prepayment. The top up will occur when the amount of prepayment falls to below \$10. When that happens, TPG will debit a sufficient amount from your bank account/credit card to restore your nominated prepayment amount. If your usage is high, this can occur more than once per month. You authorise TPG to make such debits to your account/credit card. If you do not exceed the Included Value and do not incur any charges that are excluded from your plan, there will be no automatic top-ups. We will send you messages about your usage and the debits during the month. Your service will become inactive if our attempts to debit credit card/bank account to top up your prepayment are unsuccessful. If you do not use the prepayment, it will be forfeited to us when you cancel the service. You agree that no bill will be provided for this service and that direct debiting of your account or charge to your credit card may occur notwithstanding that no bill is provided and that it may occur even though you may not have had the opportunity to check charges at least 10 working days before the debit.

Payment: Monthly access charges are billed monthly in advance. Payment options are Direct Debit or Credit Card.

Installation: After you have submitted your order, TPG will confirm if an installation appointment is needed. If an installation appointment is needed, TPG will organise this and contact you with the appointment details. You or an authorised person over 18 years of age will be required to be at the premises on the day of the appointment. For more information, please visit www.tpg.com.au/nbn-ftp.

IP Address: All plans come with Dynamic IP address.

Free IPTV: TPG's free IPTV service is not supported on TPG NBN Broadband plans.
