#NBN Speeds: Typical Evening Download Speed is measured between 7pm and 11pm. The actual speeds for the service may be slower and vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. For FTTN and FTTB customers, we will inform you of your maximum line sync speed once available. If you are on a higher speed NBN plan, you have the option to downgrade to a lower speed plan without any penalties.

Voice Service Included Calls: NBN Extra Bundle 12/1 plan allows you to make unlimited Local Calls and unlimited Standard National Calls to Landlines, including 13/1300 Calls. Calls to 19/1900 numbers are not supported. ^^The 100 International Minutes per month included in bundle can be used to call International Landline and Mobile destinations (excluding calls to satellite phones) listed on our [International Call Rates page](#). Standard per minute rates listed on our [International Call Rates page](#) apply after the first 100 minutes of International Calls and for calls to satellite phones. Unused included minutes for international calls expire at the end of each month. Charges for calls made that are not included in the bundle (e.g. AU Mobile numbers and Directory Services) will be charged at [listed TPG rates](#) by deducting usage charges from your Voice Prepayment Outside Included Value.

Voice Service rates and features: Refer to 'TPG Voice Call Rates' and 'TPG Voice Features' sections further below for information about applicable call rates and features.

Please refer to 'Important Things You Need to Know' at the end of this brochure for further information about the TPG Voice service.

Important Things You Need to Know

Critical Information Summary (CIS): The CIS sets out the important information you need to know about a TPG service. You can review the CIS for your selected NBN Bundle plan at www.tpg.com.au/terms_conditions/CIS.

CSG: All plans set out in this brochure are subject to you agreeing to waive the Customer Service Guarantee (CSG). For more information please contact TPG Sales on **13 14 23**.

Availability: Only available in selected coverage areas. Please use the address checker above to check the availability in your area. Further availability checks will be conducted upon registration.

Backup Power Service (FTTP): Our service includes, at no additional charge, the supply of a backup battery unit. The backup battery unit will keep some elements of your telephone service going if there is a power outage at your premises. This backup battery unit will keep power going to your NBN Network Termination Device but it will not supply power to either your handset or your Internet router. This means if you have a telephone handset that does not require power and that handset is plugged into the UNI-V port on your NBN NTD, then if there is a power outage you will be able to make and receive telephone calls (including calls to emergency services) for an estimated period of time of about 5 hours.

Non-commercial purposes: The plans set out in this brochure are all for residential consumers only and may not be used for commercial purposes.

TPG Voice Service Special Note:

- TPG Voice Service on NBN FTTP, FTTN, FTTB, FTTC and HFC is a Digital Voice Service which is delivered using Voice over Internet Protocol (VoIP) technology. Digital Voice Service requires a broadband connection and power to the Wi-Fi modem router supplied by TPG. If there is a broadband connection outage in your premises due to power or other faults, the Digital Voice Service will not work and you cannot make phone calls including "000" emergency calls.
- TPG Voice Service supports fax to national numbers in the Telstra, Optus, AAPT and Primus PSTN network. Fax to international numbers is not reliable and VoIP based fax is not supported. This plan does not support the Priority Assistance Scheme.
- TPG Voice Service does not support old dial up technology devices with built in modems such as EFTPOS, Back to Base Alarms and Foxtel Program purchase. These devices have been replaced by Internet Protocol (IP) enabled devices and many TPG customers are able to use EFTPOS, Back to Base alarms and Foxtel Program purchase through the internet provided that their devices are IP enabled. For further details on IP enabled devices contact your device supplier. TPG Voice Service also does not support analogue modems, Priority Assistance Scheme, calls to 19/1900, 0500 numbers and Universal International Freephone Numbers (UIFN).
- Once an NBN Bundle plan is purchased, you cannot separately cancel either component (NBN Broadband or Voice Service). Cancellation will cease both services. You cannot purchase either TPG NBN Broadband or Voice Service as a standalone service.

TPG Voice Number: At registration time, you can choose to port your existing number to TPG or have TPG supply a Direct Inward Dial Number (DID) for use with the Voice Service. This number will be allocated to you based on the address which you provide us at the time of registration. TPG will make use of your number as a reference point to charge for local calls. TPG will use its best endeavours to supply the Integrated Public Number Database (IPND) with your address details for the purpose of emergency services (000) calling.

Number Porting: You can port (transfer) your phone number from Telstra, Optus, AAPT, Primus or Powertel to TPG. We may not be able to port your number in all circumstances, including where you fail to provide correct account details, or as a result of contractual obligations with your existing provider. If you are porting your number to TPG, inbound calling to your number will not commence until porting is complete which will take a further 1 to 5 business days.

Installation: After you have submitted your order, TPG will confirm if an installation appointment is needed. If an installation appointment is needed, TPG will organise this and contact you with the appointment details. You or an authorised person over 18 years of age will be required to be at the premises on the day of the appointment. For more information, please click [here](#).

Voice Prepayment Outside Included Value: All TPG services are prepaid. You must pay the monthly recurring charges in advance. In addition, you must make a prepayment for usage that is not within the included value (if any) for the plan that you have acquired. Your initial prepayment will be \$20. After registration, you may nominate how much you wish to prepay but the minimum prepayment is \$20. The prepayment will be debited from your nominated bank account or credit card. By acquiring and continuing to use the service, you agree to an automatic top up of your prepayment. The top up will occur when the amount of prepayment falls to below \$10. When that happens, TPG will debit a sufficient amount from your bank account/credit card to restore your nominated prepayment amount. If your usage is high, this can occur more than once per month. You authorise TPG to make such debits to your account/credit card. If you do not exceed the Included Value and do not incur any charges that are excluded from your plan, there will be no automatic top-ups. We will send you messages about your usage and the debits during the month. Your service will become inactive if our attempts to debit credit card/bank account to top up your prepayment are unsuccessful. If you do not use the prepayment, it will be forfeited to us when you cancel the service. You agree that no bill will be provided for this service and that direct debiting of your account or charge to your credit card may occur notwithstanding that no bill is provided and that it may occur even though you may not have had the opportunity to check charges at least 10 working days before the debit.

Payment: Monthly access charges are billed monthly in advance. Payment options are Direct Debit or Credit Card.

IP Address: All plans come with Dynamic IP address.

Free IPTV: TPG's free IPTV service is not supported on TPG NBN Broadband plans.

Wi-Fi Router Included: A 4 Port Wi-Fi Modem Router is included in your NBN Bundle. \$10 Delivery fee applies if equipment is not collected from TPG's Head Office.

Additional Pricing: Visit TPG website www.tpg.com.au/nbn/additional-pricing for NBN Bundle additional pricing (Moving Home, Cancellation, etc).

Collection Notice: During your application for a TPG service, you provided personal information to TPG Internet Pty Ltd. We collect your personal information to enable us to supply, support, bill and otherwise manage services that you (or a person/company with whom you are associated) acquire or wish to acquire. Without your personal information we will not be able to supply those services. The personal information you provide by completing these fields will not usually be disclosed to anyone else.
